6. COMPENSATION

This section presents the compensation for the fee/rate structure for the next five years, which includes any amendments to the Village Code of Ordinances.

We have developed a Project Work Plan and Cost Estimate Schedule (Schedule), presented on the following pages, which presents the tasks, subtasks and estimated hours by consultant position. The Schedule also presents hourly rates for each consultant position and determines the estimated cost for the project based upon the estimated hours and hourly rates by consultant.

The Schedule shows that successful completion of the project will require approximately 172 man-hours for an estimated fee of \$25,830, plus estimated out-of-pocket expenses of \$1,292 for a total estimated project cost of \$27,122. However, in recognition of the importance of the Village as a new client and of the economic stress that local government is under today, we are offering a new client discount of 10% or \$2,712, which reduces the total project to \$24,410. We are prepared to complete the study as proposed herein within 75 days for a lump sum cost of \$24,410.

We are offering discounted pricing in recognition of the importance of the Village as a new client and of the economic stress that local government is under today
